

CLEAR COMFORT. QUIET EFFICIENCY.

NovaVu™ is the premier secondary window insert for transforming energy wasting windows into super energy efficient triple- and quadruple-pane windows. The patented, two-pane high performance design costs a fraction of new windows & inserts made with glass. Engineered for optimal thermal insulation and sound abatement, NovaVu™ enhances occupant comfort while driving energy savings. Integrating seamlessly with existing window systems, NovaVu™ is simple to install and provides a 3rd party tested, proven, innovative technique to meet energy efficiency and sustainability goals.

PROVEN TO PREFORM

- ✓ ***50% REDUCTION IN HEAT TRANSFER & CO2 EMISSIONS***
- ✓ ***BLOCKS 99% OF UV RADIATION***
- ✓ ***20-40% NOISE REDUCTION***
- ✓ ***MINIMAL DISRUPTION TO TENANTS***
- ✓ ***WEIGHS 5X TO 6X LESS THAN SIMILAR GLASS INSERTS***
- ✓ ***NO PERMITS OR SCAFFOLDING REQUIRED***
- ✓ ***COSTS 50-75% LESS THAN FULL WINDOW REPLACEMENT***
